SUMMARY

- Results-driven Full-Stack Developer with hands-on experience building scalable Next.js + Node.js applications, background job systems, and data-driven dashboards.
- Built production-ready systems with Redis queues, MongoDB pipelines, and reusable UI component libraries.
- Skilled in converting business requirements into performant, maintainable solutions across frontend and backend

SKILLS

- ReactJS, NextJS, Tailwind,Javascript, HTML, CSS
- NodeJs,Express,Mongodb
- Fluent in Python
- Familiar with TypeScript, MySQL, Java, C++ and C

CERTIFICATIONS

https://www.freecodecamp.org/certification/baqtiyaar/responsive-web-design

EDUCATION

B.E. Computer Science
2019-2023
Deccan College of Engineering & Technology
Affiliated to Osmania University

Intermediate
2017-2019
EAMCET Rank 18000
Narayana Junior College, Hyderabad

Secondary School of Education
2008– 2017
Kakatiya Vidya Niketan High School, Hyderabad

PROJECTS AND INTERNSHIP

Software Engineering Intern

- **BeyondTech IT Solutions, Hyderabad | December 2024 - Present**
- Developed and maintained full-stack features across multiple client projects using Next.js, React, Node.js, and MongoDB.
- Optimized frontend performance and reduced page load time by ~20% through code cleanup and API optimization.
- Fixed 30+ bugs, improving system stability and reducing client-reported issues by ~40%.
- Collaborated with senior developers to convert business requirements into production-ready features.
- **Technolgies:** NodeJS, Nextjs, React & MongoDB

Project: Campaign Management System

- Built a full-stack campaign system using Next.js 15 + Node.js/Express, enabling dynamic campaign creation and real-time reporting.
- Implemented background job processing using Bull + Redis to handle large CSV datasets efficiently (50k+ records).
- Developed 20+ REST APIs and optimized MongoDB queries, improving data retrieval performance by ~40%.
- Delivered responsive dashboards using Recharts + Tailwind, reducing reporting load time by ~35%.
- **Technologies**: Next.js 15, React 19, Node.js, Express, MongoDB, Redis, Bull Queue, JWT Authentication, Tailwind CSS 4, Recharts, Axios, Formik/Yup

Project: Next.js Dashboard & Component Library

- Developed a modular dashboard and UI component library with reusable components, markdown editor, date pickers, sliders, and toast systems.
- Built 30+ interactive UI components and integrated MongoDB/Mongoose for data management.
- Improved component reusability and reduced repetitive UI development time by ~50%.
- **Technologies**: Next.js 15, React 19, Node.js, Express, MongoDB, Redis, Bull Queue, JWT, Tailwind CSS 4, Recharts

Project: Currency Converter app

- Built a real-time currency converter using a live exchange API.
- Improved UI responsiveness and simplified input flow for better UX.
- **Technolgies**: JavaScript, HTML & CSS
